## Rack / wall / floor mounting kits for indoor XUPS, XINV, VRP, ATS and ARM Series

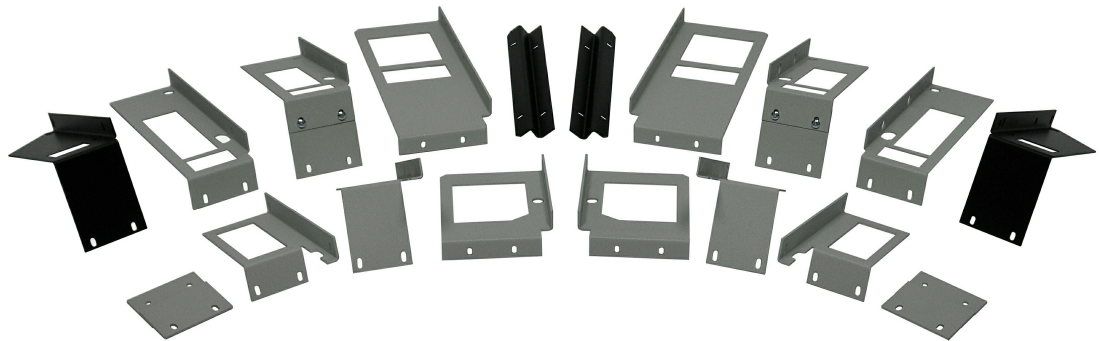

All of TSi Power's indoor products can be placed virtually anywhere that fits your space requirements. This includes desktop and floor-mount options. If your application requires a rack-mount configuration, TSi Power's XUPS, XINV, ATS and ARM line of products will accommodate most standard rack configurations.

ATS-500 shown mounted to 19" rack with MK-4019A front mounting brackets

### Typical mounting applications

TSi Power's indoor products can be mounted on standard 19", 23" and 24" racks or on the wall or on the floor.

Front, center and rear rack-mounting brackets for 19", 23" and 24" racks, as well as wall and floor mounting brackets

## Features and Benefits

- Standard mounting brackets let you easily mount TSi Power's XUPS, VRP, XINV, ATS and ARM line of products in racks, on walls, or on floors.
- Custom mounting options are also available. Contact your TSi Power's sales representative.
- Mounting bracket kits come equipped with the appropriate hardware for easy attachment to the specific power equipment and mounting surface.
- Brackets are fabricated from galvaneal steel and painted with a durable and long-lasting polyester powder coating.
- Rack-mounting options include front, center and rear mounting for maximum mounting flexibility.
- Indoor products can be mounted on a variety of standard 19", 23" or 24" racks to meet the space requirements of your systems,
